

Veterinary

Compounded medications to help our furry, feathered and cold-blooded friends.

Table Rock Pharmacy is proud to be a full-service veterinary compounding pharmacy. We offer veterinary medications and high quality prescription compounding services to pet owners. These compounded preparations can be made in a variety of dosage forms, delivery methods and flavors.

Our compounding technicians and pharmacists will work in tandem with your veterinarian to help prescribe the best compounded medication option to keep your pets healthy and safe.

Available compounding delivery methods

Table Rock Pharmacy can take almost any pet medication and turn it into a customized option, so it's easier to deliver to our animal cohorts. It can even be as easy as rubbing it on their ears or adding it to some beef, chicken or fish during a meal.

We offer pet compounding in the following easy to administer forms:

Dog treats	Topical creams
Capsules	Flavored suspensions
Ear gels	

Available compounding flavors

At Table Rock Pharmacy, we know that there's no flavor that every pet will love, so we like to give pet owners as many flavor options as possible.

Some of our most popular, pet friendly flavors include:

Tuna	Chicken
Bacon	Fruit flavors
Beef
